engines developed by Cummins: the 3.9-liter Cummins 4bt and the Cummins B3.3. The latter comes in five versions, ranging from 60 to 85 in horsepower. Cummins is an American business that builds, sells and services engines and other internal vehicle parts.

Specifications for a 4-Cylinder Cummins Diesel Engine | It ...
The 4-cylinder engine of the BRZ is a powerful unit that cranks 205 hp and transfers all the power to the manual gearbox. It is not an in-line engine, but a flat boxer engine. On the other hand, there are also automatic transmissions, and if you choose automatic transmissions, 5 hp of power is lost from the system due to mechanical losses of the automatic system.
