cap CO2 pollution from power... 3. Control of Methane Leaks— Colorado has become the ...

7 Solutions to Climate Change Happening Now - Scientific ...

"That's about the amount that global warming has affected us so far." IV believes they have invented a cost-effective -- albeit "outside-the-box" -- solution for cooling the earth, and it involves a 2-inch diameter hose. Myhrvold proposes pumping sulfur dioxide into the atmosphere by stretching a garden hose straight up into the sky.

5 Simple Solutions to Global Problems - ABC News

5 Ways to Curb Climate Change. Governments, businesses, and utilities are moving toward cleaner energy. But the push to trim carbon emissions begins with changing how we live.

5 Ways to Curb Climate Change | National Geographic

The primary way to solve global warming is to eliminate the role of fossil fuels in modern society wherever possible. This means transitioning to renewable and carbon-free energy sources such as solar, wind, and hydro which cause less than 3% of the greenhouse gas emissions of fossil fuel energy sources.

How to Solve Global Warming - Climate, Sustainability ...

Ten Personal Solutions to Global Warming Get an electricity monitor.. Identify where the energy hogs are in your home, which can help you save hundreds of... Change those light bulbs.. New LED light bulbs can give the same light for 15 percent the electricity. That adds up to... Buy less stuff.. ...

Ten Personal Solutions to Global Warming | Union of ...

Because we are already committed to some level of climate change, responding to climate change involves a two-pronged approach: Reducing emissions of and stabilizing the levels of heat-trapping greenhouse gases in the atmosphere ("mitigation"); Adapting to the climate change already in the pipeline ("adaptation").

Solutions - NASA: Climate Change and Global Warming

Global warming is a phenomenon of climate change characterized by a general increase in average temperatures of the Earth, which modifies the weather balances and ecosystems for a long time. It is directly linked to the increase of greenhouse gases in our atmosphere, worsening the greenhouse effect.
