Although a nice overview of the history of psychology, Morton

Hunt's Story of Psychology isn't objective or serious enough

to be considered a seminal work in the social science. To his

credit, however, he does attempt to take an increasingly drab

subject matter and bring it into the context of modern

humanistic literature.

[The Story of Psychology: Amazon.co.uk: Hunt, Morton ...](#)

The Story of Psychology by Morton Hunt is one of the

longest, but greatest works I've read. I went into this having

little to no prior knowledge on psychology, except for the fact

that my sister is majoring in it. However, I have left this being

able to give an entire presentation on the history of

psychology.
